

Company Shares

Rostelecom's ordinary and preferred shares (tickers RTKMP and RTKM) are listed on the Moscow Stock Exchange's first level of the quotation list (hereafter – the first level). The inclusion of Rostelecom shares on the first level, as well as the inclusion of the Company's securities in stock exchange indices evidence a high level of trading liquidity in the Company's shares. Since June 2014, the ordinary shares of Rostelecom have been included in the non-quoted part of the PJSC Saint Petersburg Stock Exchange.

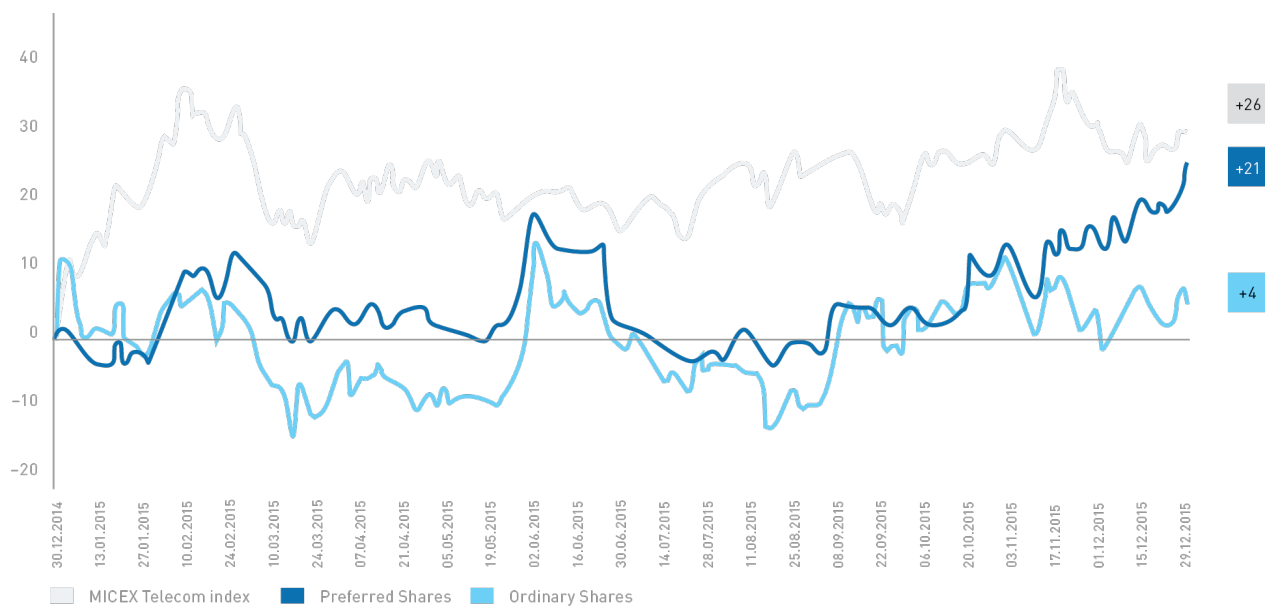

The Company's shares are included in indices that serve as benchmarks for number of large institutional investors. These benchmarks include MSCI Russia, FTSE Emerging Markets, Market Vectors Russia Index, MICEX index.

Basic Trade Indicators of the Company's ordinary shares on Moscow Stock Exchange

First Trading Day Price, RUB	87.01
Minimum, RUB	76.00
Maximum, RUB	97.10
Last Trading Day Price, RUB	90.55

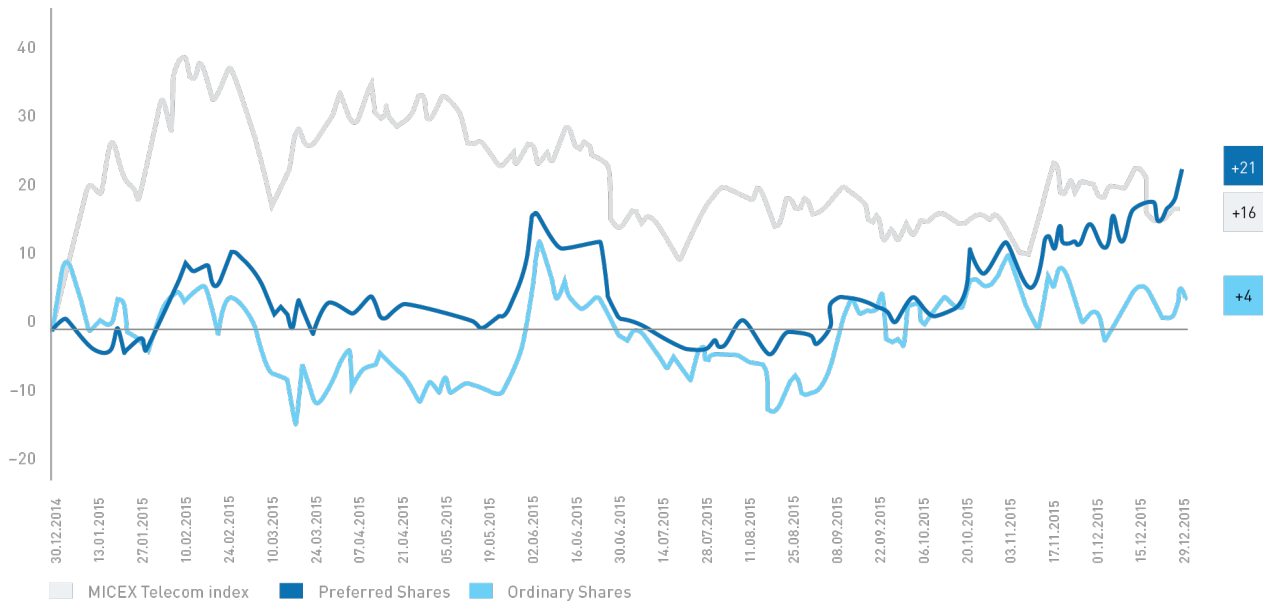

The positive dynamic of the MICEX index was mostly driven by the growth of quoted companies exporting raw materials, the ruble revenue of which was impacted by the devaluation of the Ruble.
